Parking Info: www.ryerson.ca/parking

Followed by Annual Year End Social

In less than a decade, SIA **Smaartlive** has become a very popular and affordable measurement tool in the professional audio industry. SmaartLive is a real-time sound system measurement, optimization, and control software system. It combines audio frequency measurement, analysis and data logging capability with an intuitive, user-friendly interface and the ability to remotely control an extensive list of top name equalizers and DSP processors. A new release is about to upgrade the current Version 5. **SIA** is a wholly owned subsidiary of Eastern Acoustic Works Inc. (EAW) and its parent company Mackie Designs.

Arthur Skudra will go through a quick overview of the software, demonstrating its capabilities for sound system measurement and optimization. Mr. Skudra has over 20 years experience in designing technical media systems, including sound, lighting, and video systems, for very large auditoriums and contemporary churches throughout North America. He has also served as a technical director, supervising and providing technical staffing for productions, radio and television production coordination, dramatic musical production coordination, volunteer training, for a church of over 5,000 people. He is a nationally recognized speaker and trainer, having conducted numerous training workshops throughout North America and Asia, and completed graduate degrees in education and communication, and has a strong background in music before making a career of professional audio. He works out of his Hamilton, ON office as a consultant.

CALL FOR NOMINATIONS

2006/2007 AES Executive

Nominations are now being accepted for positions on the 2006/2007 AES Toronto Section Executive Committee. Please contact Robert Breen at TorontoAES@TorontoAES.org.

The Toronto AES Section Bulletin is published ten times yearly by the Audio Engineering Society Toronto Section and is available on the Internet at www.TorontoAES.org

Submissions are welcome. Articles may be reprinted with the author's permission. Space is available for AES related companies and individuals wishing to address our members. For submissions, advertising rates or other info, email TorontoAES@TorontoAES.org.
