*Demonstration*

# CEDAR

# Audio Tools

**Date: Tuesday, November 25, 2003**

**Time: 7:30 pm**

**Where: Ryerson Eaton Lecture Theatre**

Rogers Communications Building  
80 Gould Street, Toronto, ON  
corner of Gould and Church, one block east of  
Yonge St (Dundas Subway)

**Presenters:** Mr Gilles St-Laurent, National Library of  
Canada and Mr Norman Verrall HHB Canada Mr  
Graham Newton audio restoration expert

Pre-Meeting "Dutch Treat" dinner 5:30 pm at the  
Pickle Barrel (corner of Edward and Yonge in the  
Atrium)

**HHB Communications Canada Limited** will be presenting an  
overview of the CEDAR Audio tools for audio restoration, post  
production and forensic work.

The CEDAR hardware and software to be shown include tools  
for removing clicks, ticks, distortions, scratches and phase  
errors using the new Cedar Cambridge system. New forensic  
adaptive filters that were first shown at the New York AES will  
also be demonstrated.

The Cedar DNS1000 dialog noise suppressor and several  
software plug-in applications for the Sadie workstation such as  
CEDAR Retouch, and Dethump will also be shown.

*continued overleaf*

## About this month's presenters...

---

### Mr Gilles St-Laurent

The demonstration will be presented by Mr Gilles St-Laurent, who is the Audio Conservator at the National Library of Canada and a long time Cedar user. Gilles has worked in the field of audio restoration since 1983, and is a recipient of a Cedar award for vintage recording remastering.

### Mr Norman Verrall and Mr Graham Newton

Joining Gilles in the demonstration will be Mr Norman Verrall, who is the sales manager of HHB Canada as well as Mr Graham Newton, who is a local audio restoration expert and a long time Cedar user.

### HHB Communications Canada

HHB manufacture and distribute a wide variety of products, with the emphasis on digital audio. HHB branded products include a highly regarded range of recording media, (CD-R discs, Digital tape, MO discs, DVD discs, etc), a complete range of professional CD Recorders, and specialized location recorders for film and video production

HHB Canada represents a comprehensive selection of tools for the audio professional, including Sadie Digital workstations, Soundtracs digital production consoles, DiGiCo Live production consoles, Eventide effects processors, CEDAR audio restoration tools, Millennia Media processing and Lynx Studio PCI audio cards.
