Presentation

MaRS Discovery District

Harman HiQnet: Integrated Audio/Video/Data

date time where	**Tuesday, September 26, 2006** **7:30 PM** **MaRS Centre, 101 College Street, Toronto** Info: www.marsdd.com
	Located on the southeast corner of College and University – Main entrance is on College Street
	Pre-meeting Dutch treat dinner, 5:30 pm at Pogue Mahones, 777 Bay Street (at College), Toronto

Please Note: Advance registration with National Mailbox is required. Admission is limited to 60. Call 416 964-1126 by 12 noon, September 26.

MaRS Discovery District has created a "community" physical and virtual that connects outstanding scientists, entrepreneurs, business leaders and investors to create a more efficient commercialization marketplace. The companies located in the MaRS Centre represent a broad band of inter-disciplinary industry segments from life sciences and IT to materials and applied science.

Technology is fully integrated into MaRS Network/Broadcast Operations Centre where technicians manage and control all aspects of the network and AV systems using software and automation control panels.

HiQnet, a fully integrated audio, video and data system, is structured to give MaRS tremendous flexibility for component placement and control. Podioms and AV equipment can move from room to room without loosing access to the fully integrated system. Apple Xserve, XserveRaid, PowerMAC G5 and Final cut Studio HD support sophisticated audio/visual production environments connected via fibre channel to 10++ terabytes of storage

Presenters and Topics:
Rob Smith – *Chief Technology Consultant MaRS*: Overview of MaRS
Sheldon Khan – *Technical Director for MaRS*: Tour of the command post
Chris Randles – *Applied Electronics Ltd – System Integrator*: Integration of Video/Broadcast
Russ Noble – *Technical Support – Soundcraft Canada*: Integration of Soundweb London
