**118 Shelbourne Street, Toronto, ON**

Pre-Meeting "Dutch Treat" dinner: 5:15 pm at  
The Hothouse Café, 35 Church Street, Toronto  
<http://www.hothousecafe.com>

The AES is the only professional society devoted exclusively to audio technology. Its membership of leading engineers, scientists and other authorities has increased dramatically throughout the world, greatly boosting the society's stature and that of its members in a truly symbiotic relationship. As AES President for the 2004/2005 year, **Theresa Leonard** has a unique perspective to offer on how effective the AES has been at achieving its goals, and what its future direction might be.

Ms Leonard has served as education chair for the Society, chaired the 24th International AES Conference on Multichannel Audio at The Banff Centre in June 2003 and served on the executive committee of the Los Angeles AES Convention in 2000 and again on the San Francisco committee in 2002. She is a past Governor of the AES, and is the founder of the Alberta section of the AES.

She is the director of Audio for Music & Sound at The Banff Centre and holds a Master's in Music, specializing in sound recording from McGill University. She has produced and engineered award-winning recordings for companies such as Anelekta, Arktos, and Bravo! Centaur, EMI, and Marquis Records.

The Toronto AES Section Bulletin is published ten times yearly by the Audio Engineering Society Toronto Section and is available on the Internet at [www.TorontoAES.org](http://www.TorontoAES.org)

Submissions are welcome. Articles may be reprinted with the author's permission. Space is available for AES related companies and individuals wishing to address our members. For submissions, advertising rates or other info, email [TorontoAES@TorontoAES.org](mailto:TorontoAES@TorontoAES.org).

UPCOMING MEETINGS

January 23 or 30, 2006 TBA

PLEASE POST - MEMBERS AND GUESTS WELCOME
